Neighborhood Development Center has complex program offerings and diverse funding sources, including state, federal, corporate, and foundation funding. There is a heavy emphasis on reporting, requiring this role to focus narrowly on the finance function. Knowledge and understanding of Office of Management and Budget requirements for this role is critical because of federal funding, as is the ability to work closely with program leaders. Strong team management experience is key to being successful in this role.

Reporting to the President, the Controller will be responsible for oversight of all finance, accounting and reporting activities. The Controller will be involved in supporting presentations to the board finance and audit committee and will work closely with the senior leadership team.

The Controller will lead all day-to-day finance operations of a budget of \$4 million and supervise a team of 3 staff members including functional responsibility over accounting, accounts payable, accounts receivable, payroll, and grants administration. The Controller will lead a system assessment and transition of accounting software to ensure that NDC has the systems and procedures in place to support effective program implementation and conduct flawless audits. The Controller will work closely with program leaders and their staffs, not only to educate them regarding finance and accounting procedures but also to explore how the finance function can support program operations.

In addition, she or he will partner with the senior leadership, and the human resources (HR) and information technology (IT) staff to enhance and better integrate finance, HR, and IT functions.
